

SANJAY PRABHU KUNJIBETTU

Aspiring researcher in Deep Learning and Neural Networks | Data Scientist | sanjay.prabhu1729@gmail.com | Phone: +49 15510 278099 | [Linkedin](#) | [Github](#) | [Kaggle](#)

EDUCATION

HOCHSCHULE FUER TECHNIK STUTTGART

MSC in Software Technology (Master Thesis 1,0 (Highest Grade) Recipient)

Computer Vision, Software Engineering and Architecture, Database Management, Cloud and Distributed Systems

Stuttgart, Germany

Mar 2024 - Sep 2025

MANIPAL INSTITUTE OF TECHNOLOGY

B.Tech Computer Science and Engineering (Specialization in Artificial Intelligence and Machine Learning)

Data Structures and Algorithms in C, Database Management in SQL, Parallel Computing in CUDA, Object Oriented Programming in JAVA, Linux

Manipal, India

Jul 2017 – July 2021

PROFESSIONAL EXPERIENCE

MERCEDES-BENZ Mobility AG

Artificial Intelligence Researcher – Master Thesis

Stuttgart, Germany

Apr 2025 – Sep 2025

- Conducted Research on integrating **LLMs** and **Machine Learning models** into corporate workflows to improve productivity and efficiency of monthly financial closure and bridge technical gaps between data analysts and non-technical stakeholders improving stakeholder relationships
- Built a custom **RAG** context aware chatbot using **open source models from Hugging Face** to help non-technical stakeholders interact with technical documentations using natural language conversations using **Langchain** chunking to help the LLM process the texts from PDFs.
- Designed and evaluated prompt engineering strategies and benchmarks for the corporate **Text-to-SQL LLM** conversational AI Chatbot.
- Built interactive **Power BI** and **Azure Databricks Dashboards** to evaluate the SQL query accuracies, stability and usability of LLM Models.
- Devised machine learning strategies (**Logistic Regression, Random Forest, Isolation Forest**) on implementing anomaly detection in the corporate cloud environments to help test and evaluate the quality of financial data migrations from on-premise to Azure Cloud server.

MERCEDES-BENZ Mobility AG

Business Intelligence and Data Quality Analyst - Werkstudent

Stuttgart, Germany

Jun 2024 – Mar 2025

- Leveraged **Python, Azure Databricks, Power BI, Jupyter Notebooks, SQL, Jira, Atlassian Confluence, Power Automate** to extract actionable insights from Azure Cloud **enhancing querying processes and automating tests and validations by 60%**.
- Migrated financial data from on-premise to Azure Cloud establishing a scalable, GDPR secure and efficient data infrastructure to optimize business operations and conducted quality testing using Python scripts on Azure Databricks.
- Completed data validation checks for **monthly financial closure** using Python to automate testing **improving efficiency by over 90%**.
- Onboarded and mentored new interns and werkstudents to the team during the tenure.

QUANTIPHI ANALYTICS

Framework Engineer in Big Data

Mumbai, India

Feb 2021 – Feb 2024

- Lead the Indian cross-functional teams** to deliver business intelligence solutions for healthcare and business clients **across the globe**, covering markets from U.S.A., Canada, Mexico, Brazil, U.K., Germany, Belgium, Netherlands, Luxembourg, Ireland, France, Spain, Italy, Portugal, Japan, South Korea, Australia, Singapore, South Africa.
- Developed **Python and Power Automate workflows** and **machine learning models** to automate data engineering tasks **saving the organization costs by over 85%**.
- Annual Award recipient from 2021 (Best Intern), 2022 (Best Team Member) and 2023 (Best Project Leader).
- Developed **Tableau** and **Power BI Dashboards** delivering actionable insights to the clients and internal data science operations.
- Conducted **learning workshops in Data Science and Python** helping over 100+ students and interns during the tenure.
- Part of the campus hiring team 2022** and lateral entry data engineer hiring team in 2023 and **responsible for onboarding new team members** for the Indian offshore support in Mumbai, Bengaluru and Trivandrum campuses from 2023.

SCHNEIDER ELECTRIC

Quality Testing and Automation Intern

Bengaluru, India

Aug 2020 – Sep 2020

- Conducted black box testing scripts using Java and Python, automated basic workflows using BluePrism

PROFESSIONAL and UNIVERSITY PROJECTS

- Lyft-LIDAR-Autonomous-Driving-Object-Classification**: Conducted preliminary analysis of **LIDAR Lyft 5.0** Kaggle data (**Autonomous Driving**).
- Face Mask Detection using PyTorch**: Developed a custom **Resnet-based** computer vision model and compared it with a **PyTorch Resnet34** model to accurately classify proper face mask usage in diverse visual conditions (**Multimodal Object Classification**).
- Automatic Number Plate Recognition**: Developed an **object detection pipeline** utilizing a **Resnet18 torch** model and **OpenCV** to automatically recognize license number plates from diverse images of cars.
- E-Clothing-Classifer**: Developed a custom **CNN** and implemented robust multiclass metrics for FashionMNIST Kaggle data, streamlining e-commerce image processing.
- Context Aware RAG Chabot**: Context-aware (RAG) question answering with LLMs for uploaded documents using HuggingFace open source LLMs API, React frontend and Flask backend, Docker-compose to containerize the app, ensuring CORS using Github Workspace.

SKILLS

Programming Languages: Python, Java, C++, C, R, YAML, Markdown, HTML5, React.js, Javascript; **Frameworks:** PySpark, BeautifulSoup, Django, Docker, FastAPI, Flask, Keras, LangChain, NLTK, Transformer, Matplotlib, Seaborn, NumPy, Pandas, **PyTorch**, REST API, Scikit-Learn, Open CV, Selenium, Spacy, TensorFlow, Plotly; **Databases:** MySQL, PostgreSQL, Oracle, MongoDB, Firebase Pickle, JSON, XML; **Cloud:** Microsoft Azure, Amazon Web Services (AWS); **BI Tools:** Anaconda, Canva, Claude, Confluence, Databricks, Deepseek, Eclipse, Git, Github, Gitlab, Google Colab, Google Gemini, Hugging Face, IntelliJ IDEA, Jira, Meta Llama, Notepad++, Notion, Notebook LM, OpenAI, Office 365, Perplexity, Power BI, Postman, PyCharm, Replit, SQL Workbench, Sublime Text, Streamlit, Tableau, TexStudio, Visual Studio Code; **Spoken Languages:** English (Fluent), **German (A2.2)**, Hindi (Fluent), Konkani (Fluent);

Professional Certifications: AWS Solutions Architect Associate, NVIDIA Accelerating Data Science workflows, Tableau Desktop Specialist
